Mr. Shannon Claborn,

I would like to take this time to express not only my appreciation, but also the appreciation of the Hamilton County Sheriff's Office, Corrections Division for the recently completed door locking mechanism retro-fit project. The project was one of the most operational friendly I can recall. This job was completed in much less time than we ever anticipated. Norman Wibbenmeyer, onsite project manager, demonstrated superb knowledge and leadership skills in maintaining the project schedule. He constantly provided me with updates on progress, which assisted in minimal operational interruptions.

I would be remiss if I did not also commend his staff, which consisted of Gonzalo Ramirez and Sergio Flores. These two men worked tirelessly to get the job done and maintain the schedule. On many days they would work eight plus hour to complete an area in order to allow us the ability to move inmates. This cut down on dead time for both Cornerstone and the facility.

I know there was also a lot of coordination behind the scenes by Curtis Johnson and other Cornerstone personnel. I would also like to thank them for "A JOB WELL DONE".
